

Flex Spray Connect™ Kit

Features / Benefits

- Equipped with Guffey Systems patented mobile rails
- Using our new mobile rail connector, mobile rails connect to create a flexible and portable spray area that can move to different areas in your spray booth
- Entire unit can be moved while connected
- Move in and out of your spray booth as needed
- Quick and easy one person set up
- Set up and functional within a couple of hours
- No permanent install required
- Offered in a 20 part kit with the compact mobile rails or a 30 part kit using the standard mobile rails
- Connector can be purchased separately by existing PivotLine® customers who already have mobile rails
- Connectors offered in 2', 4' and 6' lengths

- Connector locks firmly into the mobile rail:
